**Good for Kids**

**LET'S MOVE MORE**

*At least 60 minutes a day – in many different ways.*

Children’s daily physical activity does not have to be done all in one go. The 60 minutes can be accumulated throughout the day.

Remember, even if your child doesn’t play sport, there are lots of activities they can do. Being active in a variety of ways will help children get all the benefits.

If your child is not doing 60 minutes of physical activity every day, they will benefit from gradually increasing their activity to reach this amount.

**Intensity**

While all physical activity is helpful, the Guidelines recommend moderate to vigorous intensity physical activities.

**MODERATE INTENSITY ACTIVITIES** require some effort, but children can still speak easily while doing them.

E.g. fast walking, riding a bike or scooter and active play.

**VIGOROUS INTENSITY ACTIVITIES** require more effort and make children breathe harder and faster ('huff and puff').

E.g. running, chasing and playing tag, and many organised sports like soccer or netball.
